## Notice of extended working hours on and around Northway Island from 21 September

September 2020 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Early works for HS2 are being carried out by a joint venture between Laing O'Rourke and Murphy & Sons, known as LM. In your area, we are working near the A452, A45 and M42, which surround the site of the future HS2 Interchange Station.

### We're improving the local road network

During 2020, we are improving and expanding sections of the existing road network in the area, and constructing new routes on HS2 land, which will connect to four new highway bridges. These road improvements will ensure that when the future station is operational, the local road network is fit for purpose.

Earlier in the month, we had stated that we would be undertaking this programme during restricted daytime hours. As traffic movements in the area remain low, some of our traffic measures will now remain in place 24-hours. We expect that the impact of extended working hours on road users is likely to remain low, however if traffic movements increase substantially, restricted working hours will be reintroduced.

### We'll extend our working hours from 21 September

To carry out our continued works safely, single lane closures will remain in place on and around Northway Island. Our working hours will be 7am to 6pm, but some traffic measures will remain in place 24-hours. We will work Monday to Friday, however we may extend our works into the weekend if required. Most of our traffic measures will be located on Northway and remain in place 24-hours (see map on next page).

### HS2 during the coronavirus pandemic

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current coronavirus strategy makes clear that construction activity can continue as long as it complies with this guidance. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)**

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses across Birmingham and the West Midlands, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: [www.groundwork.org.uk/hs2funds](http://www.groundwork.org.uk/hs2funds)
