

# M42 Junction 6 upgrade

## Solihull Road Demolition

### Solihull Road Bridge Demolition

We're now planning to demolish the old Solihull Road bridge in May. These activities will allow us to continue our work on the new A4545 link road between Clock Interchange and this new junction, part of our upgrade scheme on the M42 at junction 6.

To complete this bridge demolition safely we'll need to fully close the M42 in both directions between junction 5 and junction 6 from **22:00 on Friday 5 May** to **05:00 on Monday 8 May 2023**.

The bridge will be demolished by breaking out the concrete deck. We'll need to fully close the M42 to place excavators on the carriageway in order to carry out this work safely. This is a crucial step to enable the opening of the new Solihull Road bridge by the end of July.

We'll provide further information and updates on any road closures through the scheme webpage and National Highways social media channels:
